

International Symposium on Catalysis for Clean Energy and Sustainable Chemistry (CCESC 2016)

Madrid, September 7th-9th 2016

Sponsorship Guide
English Version

This sponsor guide of the *International Symposium on Catalysis for Clean Energy and Sustainable Chemistry (CCESC 2016)* contends the following information:

- | | | |
|----|-------------------------|---------|
| 1. | Executive Summary | page. 3 |
| 2. | Madrid | page 4 |
| 3. | CCESC 2016 | page 5 |
| 4. | Scientific Congress | page 6 |
| 5. | Sponsorship | page 7 |
| 6. | Inscriptions and prices | page 11 |

The concept of sustainable development has deeply permeated all sectors of our society. Many studies acknowledge that it is necessary to develop new technologies that allow the challenges faced by today's society, especially in the area of clean energy and sustainable chemistry. This issue is critical specially after the signing of the historic agreement of the COP21 in Paris on the limitation of emissions of greenhouse gases.

The spirit of the Organizing Committee of this International Symposium is to organize a meeting between scientists and entrepreneurs from around the world whose interest is centered in the technological aspects of sustainable development with the desire to review technologies on the rise and discuss possible future directions of evolution that can reverse positively in the development of the society.

At the time of drawing up this guide, some of the most prominent scientific figures in the area of sustainable chemistry and clean energy have already announced their participation in this event.

The date opportunity is obvious that develops a few days before the celebration of the 6th EuCheMS Congress in Seville (<http://euchems-seville2016.eu/>), which facilitates the attendance of speakers coming from abroad.

Madrid, the capital of Spain, is a welcoming city for tourists, with many cultural possibilities (museums, gardens, exhibitions, gastronomy, nightlife..). It also has excellent national and international connections by plane, train and bus

On the other hand different official institutions in Madrid have offered support for the convening of the Symposium, showing its wider collaboration, as it could not be less than a city worried about clean energy and sustainability of the energy system.

The International Symposium on Catalysis for Clean Energy and Sustainable Chemistry (CCESC2016) is a scientific event where he will meet in Madrid the most eminent scientists in the area of sustainable chemistry and clean energy with representatives of the business sector, in order to find meeting points that allow the most relevant technological challenges of our society

The main topics of this symposium are:

1. Catalytic Technologies for the Production of Bioproducts and Biofuels
2. Catalysis for Sustainable Chemistry and Environmental Protection
3. Hydrogen: production, storage and uses

Invited Lectures by scientists and relevant technologists will be included, who can offer his vision of the technological status and policies that can contribute to sustainable development.

The following conferences of invited speakers have been confirmed, the speaker are scientists of international renown in their areas of work

1. Prof. Dr. Karen Wilson, Chair of Catalysis and Research Director of the European Bioenergy Research Institute (EBRI), Reino Unido
2. Prof. Dr. Xenophon Verykios, Department of Chemical Engineering , Uiversity of Patras , Grecia
3. Prof. Dr. J. W. (Hans) Niemantsverdriet, Director SynCat@Beijing (China) and Syngaschem BV (The Netherlands)

There is also an open call for worldwide so that researchers and technologists from around the world to present their work. A Scientific Committee will evaluate applications and select the presentations and posters

The ultimate objective of the Symposium is to provide a forum of discussion in which the research sector and the business sector to exchange views, concerns and generate technological collaboration centers

The Organization of the International Symposium on Catalysis for Clean Energy and Sustainable Chemistry considers essential the presence of sponsors of the Congress

The shared funding (attendees and sponsors) presents numerous advantages:

- Highlights the technological character of the Symposium
- Creates and strengthens partnerships between the guests and attendants with the business sector in view of future joint activities
- Reduces the economic cost quotas for attendants facilitating their participation

Potential sponsors can be found in the formula of sponsorship the following advantages:

- Advertising aimed at a target audience
- Presence of the corporate logo on all activities and information of the Symposium
- Make patent their involvement in technologies that contribute to the development sustainable
- Take right to the advantages for sponsors

There are two categories of sponsorship as well as specific sponsorship according to the conditions listed below

Gold Sponsor:

3.000 € (+ VAT)

The sponsor's logo will be shown in all Symposium documentation: www.ccesc2016.net, official poster, program, etc. (the size of the logo shall be equal to the organizing institutions).

Two free registrations, with access to all events of the Symposium

The Gold category sponsors name will be shown in the press releases made by the CCECS2016 Organization

A full page in the program of the Conference (A5 size)

If the sponsor wishes you can put company brochures for free (limited in size and weight) at the shared stand as well as distribute them along with the documentation given to attendees at the Symposium

In all cases the logos and names of sponsors will appear by categories (gold and silver) and within each category in alphabetical order

Silver Sponsor:

1.000 € (+ VAT)

The sponsor's logo will be shown in all Symposium documentation: www.ccesc2016.net, official poster, program, etc. (the size of the logo shall be 50 % respect to the organizing institutions and Gold sponsors).

One free registration, with access to all events of the Symposium

If the sponsor wishes you can put company brochures for free (limited in size and weight) at the shared stand

In all cases the logos and names of sponsors will appear by categories (gold and silver) and within each category in alphabetical order

Entities interested in sponsoring specific services, as an alternative or complement to the above-listed categories of sponsorship, have the following options

Invited conference

Cost € 2,000 (+ VAT) each conference. Sponsorship for this service includes:
Acknowledgement and logo of the organization in the final program
Sign indicating the organization which sponsored the conference at the beginning and end of it.

Coffee Breaks

Cost € 1,000 (+ VAT) each service. Sponsorship for this service includes:
Acknowledgement and logo of the organization in the final program
Sign indicating the entity that sponsored the service

Cocktails

Cost € 6,000 (+ VAT) each service. Sponsorship for this service includes:
Acknowledgement and logo of the organization in the final program
Banner indicating the entity that sponsored the service

Gala Dinner

Cost € 10,000 (+ VAT). Support for this service includes:
Acknowledgement and logo of the organization in the final program
Banner indicating the entity that sponsored the dinner service Gala

For any other susceptible sponsorship service we ask you to contact the organization by e-mail: info.ccesc2016@csic.es

Inscription Rates

Early Bird Before Aug 1 st , 2016	Standard	On site at the Symposium
€ 400	€ 500	€ 600

Registration Fee includes access to all Symposium sessions, documentation, presentation of accepted contributions, coffee breaks, welcome and closing cocktails and gala dinner.
